NJSLA-Science 8th Grade Spring 2022 Results

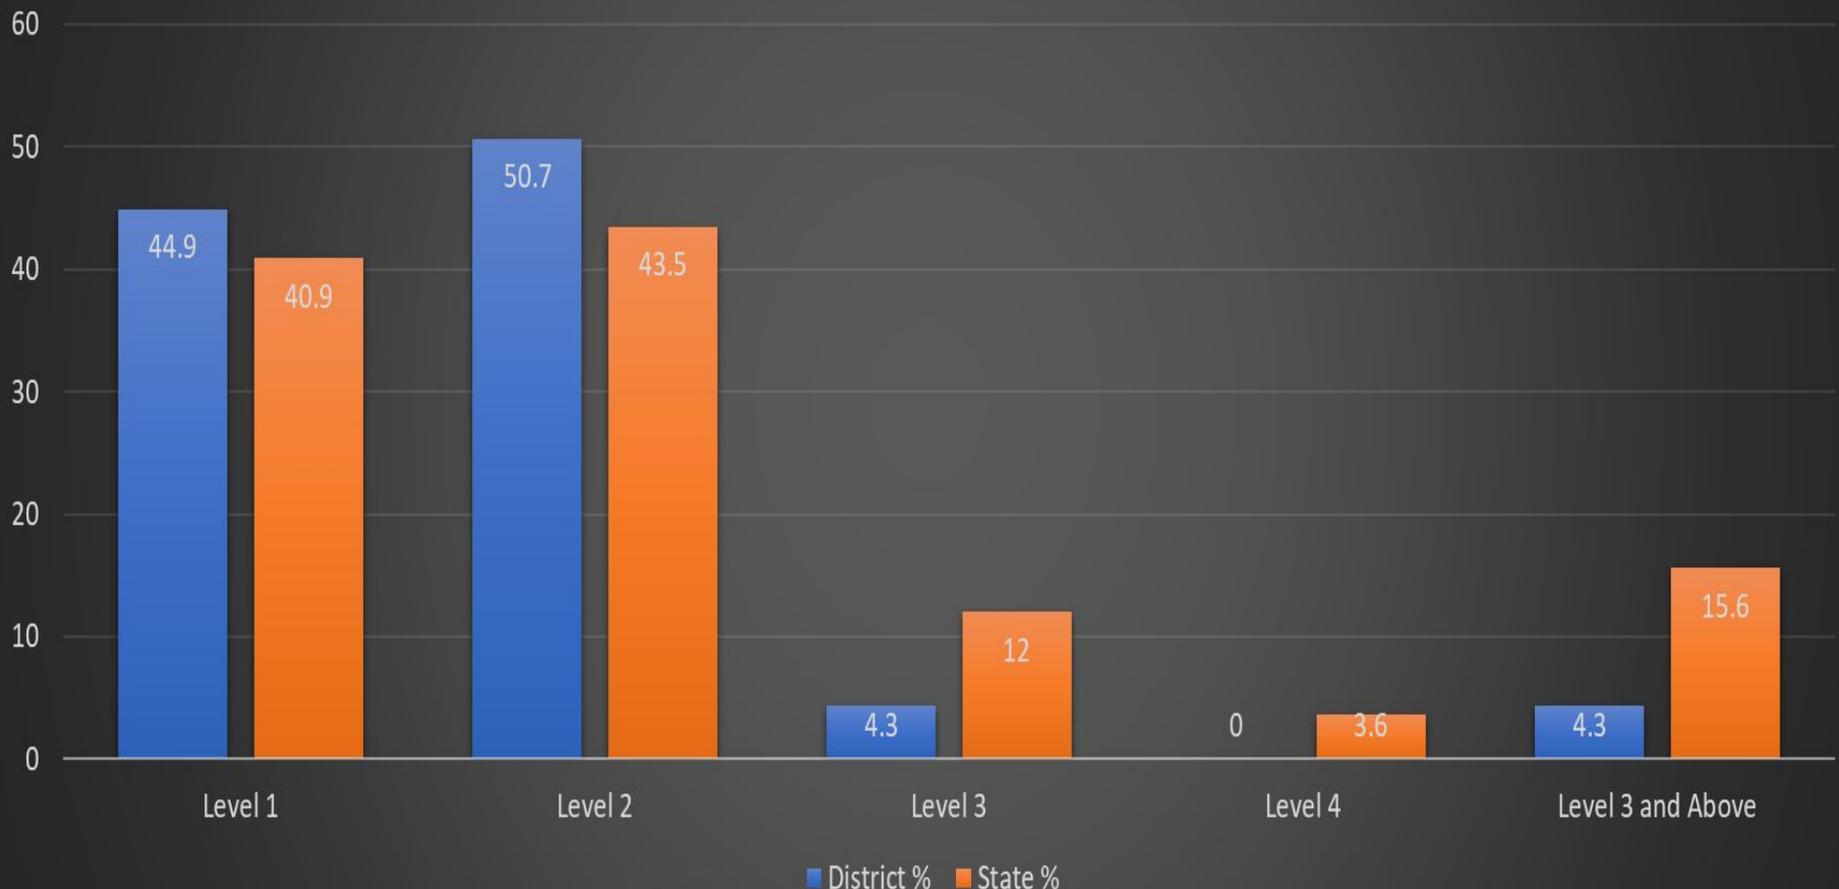

Comparison: HAINESPORT'S Spring 2022 5th Grade NJSLA-Science to New Jersey State Percentages

NJSLA-S GRADE 5 PERFORMANCE LEVELS

Comparison: HAINESPORT'S Spring 2022 8th Grade NJSLA-Science to New Jersey State Percentages

NJSLA-S GRADE 8 PERFORMANCE LEVELS

Why do NJSLA-Science scores look different from those of the previous state science tests?

- The NJSLA (New Jersey Student Learning Assessment) which is formerly known as PARCC (Partnership for Assessment of Readiness for College and Careers) serves as an "educational GPS system," assessing students' current performance, and pointing the way to what students need to learn to be ready for the next grade level and, by high school graduation, for college and/or a career.
- The NJSLA-Science assessment reflects new expectations outlined in the new science standards, the NJSLS-Science, which focuses on the application of science knowledge and skills.

Why do NJSLA-Science scores look different from those of the previous state science tests?

- The prior assessment, New Jersey Assessment of Skills and Knowledge (NJASK), emphasized the memorization of content.
- A new test was needed to measure the state's new, more rigorous science standards (NJSLA-Science) that are informing classroom instruction.

Intervention Strategies

- The NJSLA-Science data is used to evaluate the district's science curriculum and school and classroom instruction.
- This data, in combination with classroom level data collected through formative, summative, and benchmark assessments, provides feedback on students' strengths and weaknesses with particular skills related to the science standards.
- The NJDOE recognizes that due to the new standards and new assessment, districts may need additional support. The NJDOE plans to continue to develop additional resources and course materials to help support the implementation of the NJSLS-Science. The district will continue to connect educators to these resources.

Thank You!

This presentation will be available on the district's website.
